## Continuation Sheet (PTOL-303)

Application No.

09/060,825

Continuation of 2. NOTE:

Amended claims (3, 4, 5) have changed scope of the claims, such as a step of providing the noise reduced signal to a compression circuit has been changed to step of supplying the input signal to an amplification unit.

Newly submitted claim 31 has broadened a combination of claims 1 and 7 since limitation of oversubtracted has been replaced by attenuation function.

Newly submitted claim 33 creates new issue by combination of limitations from independents claims 1 (dependent claim 7) and 21 (dependent claim 30).

Also, see applicant's argument on pages 13 and 19. Therefore, further consideration and/or search will be needed.
